

The **Discipleship Coaching Tool** is designed to help councils, boards and ministry teams examine how and where discipleship is happening in their local churches. **This practical, self-directed and prayer-centered tool can be used over and over again to help guide your team's conversation. In any given session, a team may choose to evaluate, simplify, develop or clarify their church's discipleship activities.** It is our prayer that this tool will both challenge and encourage you in our call to make disciples of all nations (Matt. 28:19).

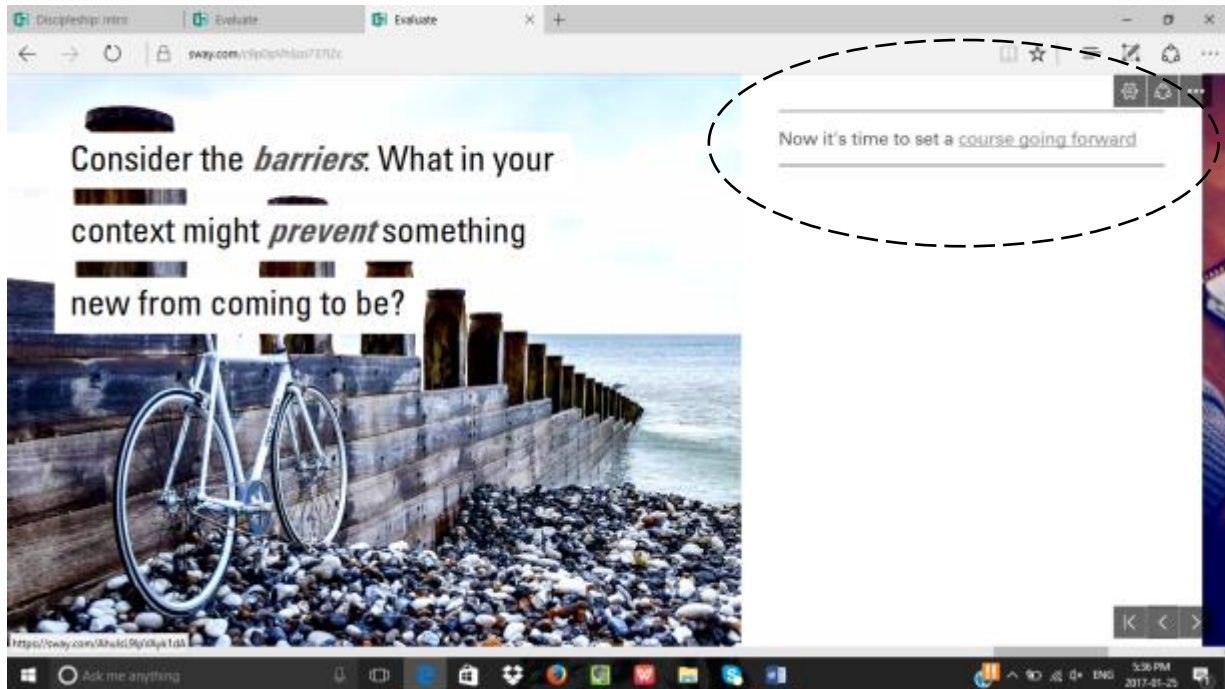

To use the Discipleship Coaching Tool, begin with *Intro: Discipleship & Church*.

At the end of the Intro presentation, select *Evaluate, Simplify, Clarify or Develop*, based on your team's needs.

At the end of each presentation, you will be directed to *Set a Course Going Forward*, where you will transform your conversation into specific actionable steps.

The Discipleship Coaching Tool requires an internet connection. For optimal performance, please use Microsoft Edge or Safari. Note that you can view and navigate the tool in various layouts (horizontal, vertical and presentation modes).
